

SOCIETY OF MUSLIM PEOPLE PROFESSIONALS

"When we strengthen our people, we strengthen the Ummah."

MEMBERSHIP GUIDE

A global home for Muslim HR and people practitioners

SMPP exists to develop the people-and-HR profession around the world. We equip Muslim practitioners with the knowledge, community and standards to lead their workplaces with excellence and integrity, and to elevate the Ummah in the process.

39%

of nonprofit organizations report having no dedicated HR professional on staff. Faith-based organizations and the practitioners inside them carry this gap especially hard. They are often the ones holding their communities together through conflict, growth and change, without the systems and support built to help them do it well.

SMPP provides the structural foundation our organizations and practitioners need to build toward their vision.
